

Abortion Archives is a SheDecides initiative celebrating the vibrant history of the abortion rights movement worldwide.

We preserve and showcase a diverse collection of art, photography, film and storytelling from activists, journalists, artists, political leaders, and abortion rights campaigners worldwide. We explore the movement's legacy, strategies, and achievements in a simple and engaging way, in both physical and digital spaces.

Whether you are an artist in Managua or a student in New York, a health worker in Accra or a teacher in Manila - the right to safe abortion affects you. **Join us as we take the history of abortion rights across the world and closer to you.**
